## Education

### Bachelor of Technology (B.Tech)

2021 - 2025

**Siddhartha Educational Group of Institutions, Tirupathi**

80%

Comprehensive engineering program with focus on core technical subjects, practical applications, and industry-relevant projects. Achieved strong academic performance with 80% overall grade.

**Engineering Fundamentals****Technical Problem Solving****Software Development**

### Intermediate Education

2019 - 2021

## Srichaitanya Junior College, Tirupathi

Strong foundation in Mathematics, Physics, and Chemistry with excellent academic performance.

### Secondary Education

2018 - 2019

#### ZPHS Anjur

Completed secondary education with strong foundation in core subjects.

## Experience

### Full Stack Developer Course

 2024 - 2025

#### Professional Training Program

Tirupathi, AP

Comprehensive full stack web development training covering modern technologies and industry best practices.

Developed end-to-end web applications using React.js, Node.js, and database technologies

Gained hands-on experience with RESTful APIs, database design, and deployment strategies

Learned industry best practices for coding standards, testing, and project management

Built responsive web interfaces with modern UI/UX design principles

### Academic Engineering Projects

 2022 - 2025

#### Siddhartha Educational Group of Institutions

Tirupathi, AP

Completed multiple engineering projects during B.Tech program, demonstrating technical problem-solving skills and practical application of theoretical knowledge.

Applied theoretical knowledge to practical implementations and real-world solutions  
Collaborated in team environments and presented technical solutions to faculty  
Conducted technical analysis and research for engineering design projects  
Maintained 80% academic performance throughout the program

## ↔ Technical Skills

### ↔ Frontend Development

JavaScript    React.js    HTML5    CSS3  
TypeScript    Bootstrap    Tailwind CSS

### 🌐 Backend Development

Node.js    Express.js    REST APIs    Python  
Java    API Integration

### ⌚ Database & Tools

MySQL    MongoDB    PostgreSQL    Git  
GitHub    VS Code    Postman

### 🔧 Professional Skills

Full Stack Development    Problem Solving  
Team Collaboration    Agile Methodology

## 📁 Projects

### E-Commerce Website

Completed

A full-stack e-commerce platform built with React.js and Node.js, featuring user authentication, product catalog, shopping cart, and payment integration.

**Key Features:**

- User authentication and authorization
- Product catalog with search and filter functionality
- Shopping cart and checkout process
- Responsive design for mobile and desktop

**Technologies:**

[React.js](#)   [Node.js](#)   [MongoDB](#)   [Express.js](#)   [CSS](#)

[🔗 Code](#)   [↗ Live Demo](#)

## Task Management App

Completed

A responsive task management application that helps users organize their daily activities with features like task categorization, priority setting, and progress tracking.

**Key Features:**

- Add, edit, and delete tasks with priority levels
- Category-based task organization
- Progress tracking with visual indicators
- Data persistence using browser local storage

**Technologies:**

[JavaScript](#)   [HTML/CSS](#)   [Local Storage](#)   [Bootstrap](#)

[🔗 Code](#)   [↗ Live Demo](#)

## Weather Dashboard

In Progress

A weather application that provides real-time weather information for multiple cities with interactive charts and forecasts using external weather APIs.

### Key Features:

- Real-time weather data for multiple cities
- 5-day weather forecast with detailed information
- Interactive charts showing temperature trends
- Location-based weather detection

### Technologies:

[JavaScript](#)   [Weather API](#)   [Chart.js](#)   [CSS Grid](#)

[🔗 Code](#)   [↗ Live Demo](#)

## Certifications

### JavaScript Fundamentals

FreeCodeCamp • 2023

### Responsive Web Design

Coursera • 2023
